Online Conference Workshops

Knowledge as vital part of the project management in remote project teams

Dr. Celina Sołek-Borowska [1] and Dr. Boštjan Delak[2]

[1] Assistant Professor, SGH Warsaw School of Economics, Warsaw, Poland
[2] Assistant Professor, Faculty of Information studies, Novo mesto, Slovenia

Workshop 1 - First Day, July 1, 2020: "Home Desk Picture"

Nowadays each of us is working from home. So our home desk became our working office.

Instructions: Please take a picture of your desk when you think you were the most productive. The participants should send two (2) pictures of their home desk at least one week before the conference to: bostjan.delak@fis.unm.si and csolek@sgh.waw.pl. During the conference workshop, the workshop facilitators will present the most interesting ones (about 5 or 6) and ask all participants to vote who they think that desk belongs to? Participants' discussion will then be facilitated on what is important in their daily work from home.

Workshop 2 - Second Day, July 2, 2020: "Blind Origami"

The purpose of this activity is to highlight the importance of listening and asking for feedback when you are working in remote location and you have to depend on team work.

People and Materials

- From 4 to 5 people in virtual teams
- Audio conversation (without video) or messaging app.
- A sheet of Letter or A4 size paper for each person.

About the Workshop Facilitators:

Celina Sołek-Borowska is an Assistant Professor at the SGH Warsaw School of Economics, in Warsaw, Poland, where she teaches: Knowledge Management, Organizational Behavior and Team building classes. She serves as a trainer for businesses, she also serves as an academic advisor in business projects and runs a team building workshop in the CEMS program (elite program at SGH). She has taught in the Erasmus program for the University of Gran Canaria (Spain), the University of Hertfordshire (UK), and the University of Alicante (Spain). Recently she served as a mentor in global virtual challenge – international project for students from five continents. Her research interest are amongst: knowledge sharing and knowledge creation, team building and strategic alliance between Universities and businesses.

Boštjan Delak is an Assistant Professor at the Faculty of Information Studies, in Novo mesto, Slovenia, where he teaches: Evaluation, Testing and Auditing of Information systems and Basics of Information Security. He is an active certified information system auditor. He is employed as information system auditor at the Court of Audit of the Republic of Slovenia. He has more than 38 years of experiences within information systems. He conducted more than 80 information systems due diligences and more than 100 information systems audits. His fields of interest are: information system due diligence, information system analysis, and knowledge management.
