

## KM Conference 2021 (Virtual)

30 June - 2 July 2021,

Themes: Knowledge Management, Cybersecurity, Learning, and Information Technology

<http://www.iiakm.org/conference/>

### Online Conference Workshops

#### *Creativity in Remote Teams*

**Dr. Celina Sołek-Borowska<sup>1</sup> and Dr. Boštjan Delak<sup>2</sup>**

<sup>1</sup> Assistant Professor, SGH Warsaw School of Economics, Warsaw, Poland

<sup>2</sup> Assistant Professor, Faculty of Information studies, Novo mesto, Slovenia

##### **Workshop 1 - First Day, June 30<sup>th</sup>, 2021: “Our Pets – How Much Our Pets Reflect Our Personality”**

A lot of IIAKM members have their own pets, dogs, cats and other animals. We hope that also other who currently do not have pets, are pet lovers. As IIAKM members, most of us know each other for a long time, but do we know our friends' pets?

Instructions: Please take a picture of your pet or your desired pet. The participants should send two (2) pictures of their pet (one alone and one with its owner) and pet's name at least one week before the conference to: [bostjan.delak@fis.unm.si](mailto:bostjan.delak@fis.unm.si) and [csolek@sgh.waw.pl](mailto:csolek@sgh.waw.pl). During the conference breaks, pets' photos will be presented. At the workshop each team will have to link pet's name with pet's photo and define country where pet is living? The goal of this workshop is *“How can small group achieve better results than single individuals, based on their experiences and common team brainstorming?”*

##### **Workshop 2 - Second Day, July 1<sup>st</sup>, 2021: “One + One = One, Boosting Creativity in Remote Teams”**

Creativity is the act of turning new and imaginative ideas into reality. Creativity is characterized by the ability to perceive the world in new ways, to find hidden patterns, to make connections between seemingly unrelated phenomena, and to generate solutions. Creativity involves two processes: thinking and implementing creative ideas.

##### **About the Workshop Facilitators:**

**Celina Sołek-Borowska** is an Assistant Professor at the SGH Warsaw School of Economics, in Warsaw, Poland, where she teaches: Knowledge Management, Organizational Behavior and Team building classes. She serves as a trainer for businesses, she also serves as an academic advisor in business projects and runs a team building workshop in the CEMS program (elite program at SGH). She has taught in the Erasmus program for the University of Gran Canaria (Spain), the University of Hertfordshire (UK), and the University of Alicante (Spain). Recently she served as a mentor in global virtual challenge – international project for students from five continents. Her research interest are amongst: knowledge sharing and knowledge creation, team building and strategic alliance between Universities and businesses.

**Boštjan Delak** is an Assistant Professor at the Faculty of Information Studies, in Novo mesto, Slovenia, where he teaches: Evaluation, Testing and Auditing of Information systems and Basics of Information Security. He is an active certified information system auditor. He is employed as information system auditor at the Court of Audit of the Republic of Slovenia. He has more than 39 years of experiences within information systems. He conducted more than 80 information systems due diligences and more than 110 information systems audits. His fields of interest are: information system due diligence, information system analysis, and knowledge management.
